

## Education Book - Haematology Today - 2012

Complimentary copy will be provided to the faculty and delegates registering with full payment. Copies will be available to the rest on payment at a subsidized rate during the CME and at the official rate subsequently.

### Contents

S No.	Subject	Authors
<b>Section I - Basic haematology</b>		
1)	Bone marrow microenvironment : Clinical significance	Sachin Jadhav
2)	Micromanagers of gene function : The micro-RNA	Ajit Venniyoor
<b>Section II - Anaemia</b>		
3)	IDA & the use of intravenous iron : Recent progress	Jim Murray
4)	IDA in India : current scenario & national programmes	Amita Trehan
5)	Diagnosis of beta thalassaemia heterozygosity	Allison C.Y. Tso Barbara Bain
6)	Complexities in prenatal & postnatal diagnosis of haemoglobinopathies - Lessons learnt	Roshan Colah Anita Nadkarni Khushnooma Italia
7)	Designing rules for designer babies : The ethics of preimplantation genetic diagnosis	Revathi Raj Deenadayalan M
8)	Iron overload in thalassaemia major & intermedia	Prantar Chakrabarti Siddhartha Sankar Ray
9)	Iron chelation in thalassaemia : What is new ?	Tuphan Dolai
10)	Bone disease in thalassaemia: A forgotten complication	Maitreyee Bhattacharyya K.S. Nataraj
11)	Haemostatic alterations in thalassaemia	Maitreyee Bhattacharyya
12)	Sickle cell disease : Management - What is new ?	Vrinda Kulkarni
13)	Eculizumab : A new ray of hope in PNH	Subhaprakash Sanyal
<b>Section III - Platelet disorders</b>		
14)	Thrombocytopenia in infants in office practice	Ratna A. Sharma
15)	Thrombocytopenia in elderly	Monica Sharma Rajan Kapoor Renu Saxena
16)	Thrombocytopenia in ICU care	Sudhir Mehta Sandhya Gulati Nidhi Sharma
17)	Chronic refractory ITP in adults	Dhiraj Bhattad
18)	T Cell Modulation in ITP	Amita Mahajan

19)	Thrombopoietin mimetic agents (TMA)	Priti Mehta
20)	Vascular complications after splenectomy	Satish Kumar
21)	Heparin induced Thrombocytopenia (HIT) : Laboratory diagnosis	Kashvi Mehta
22)	Giant platelet disorders	R. Manchanda
23)	Platelet function tests (In genetic & acquired bleeding disorders)	Seema Tyagi Sonal Jain
<b>Section IV - Bleeding &amp; clotting disorders</b>		
24)	Anti-factor Xa assay	Vandana Baloda Kashvi S. Mehta
25)	Microparticles in health and disease	Shrimati Shetty Rucha Patil
26)	Thromboembolism in pregnancy : Purist vs pragmatic management	Vishal Jayakar Helen Sykes
27)	Antiphospholipid syndrome : Then and now	Jasmina Ahluwalia Shano Naseem
28)	Hemostasis in neonates and children	J.M. Khunger
29)	Gene therapy for haemophilia	Upendra Sharma Mallikarjun Kalashetty
<b>Section V - Acute leukaemia</b>		
30)	Acute leukaemia : Immunophenotyping	Edward Chew Surender Juneja
31)	Molecular biology of acute leukemia	Lt Col (Dr) Tanushri Mukherjee
32)	Molecular markers in AML : The road ahead to molecular risk stratification	B.R.Das Firoz Ahmad
33)	Newer prognostic markers in AML	Monica Sharma Jasmita Dass
34)	Paediatric AML : Recent advances	Randeep Singh Shripad Banavali
35)	AML : Current trends in initial treatment	Niranjan Rathod
36)	Use of PEG-asparaginase in ALL	Jim Murray
37)	Acute leukaemia : Maintenance therapy	Archana Swami
38)	Hepatosplenic candidiasis	Nitin Shah Pranali Shah
<b>Section VI - T-cell &amp; LGL Leukaemia</b>		
39)	T-cell leukaemia / lymphoma : Diagnostic spectrum	M.U.S. Sachdeva Reena Das
40)	LGL leukemia : Diagnosis & management	Chandrakala S. Shashikant D. Channawar
<b>Section VII - Myeloproliferative neoplasms</b>		
41)	JAK2 mutations - From bench to bedside : A state of art review	Vishal Jayakar
42)	Primary myelofibrosis and its differential diagnosis	Tejinder Singh

		Rachna Khera
43)	Primary myelofibrosis : Advances in pathogenesis and treatment	A.K. Tripathi
<b>Section VIII - Lymphoproliferative disorders</b>		
44)	Monoclonal B-cell Lymphocytosis: A precursor stage of CLL ?	Prashant Tembhare
45)	CLL : Newer prognostic markers	Neelam Varma Shano Naseem
46)	CLL : Ontogenesis and antigen selection	Neelam Varma Shano Naseem
47)	CLL : State of art management in 2012	Shreyans Gandhi Vishal Jayakar
48)	ALPS : Advances	Manisha Madkaikar
49)	Reactive lymphoproliferative disorders mimicking lymphomas	Tanuja Shet
<b>Section IX - Lymphoma</b>		
50)	EB Virus and Lymphoma	Chandralekha Tampi Dhananjaya Saranath
51)	Double hit lymphomas	Jasmita Dass Monica Sharma
52)	B-cell NHL : The role of the microenvironment	Prashant Sharma Neelam Varma
53)	Gray-zone lymphomas : Exploring the borderlands of Hodgkin lymphoma	Udayan Kachchhi
54)	Anaplastic large cell lymphoma : A unique diagnostic genre	Tanuja Shet
55)	Primary Testicular Lymphoma (PTL) : Management guidelines	Palanki Satya Dattatreya
56)	Extranodal NHL (Case-based discussion)	Shubhangi Agale
<b>Section X - Plasma cell dyscrasias</b>		
57)	MGUS and smoldering myeloma : Prognosis	Pankaj Malhotra
58)	Plasma cell disorders : Laboratory diagnosis	Edward Chew Surender Juneja
59)	Multiple myeloma : Karyotyping and FISH studies	Anjali Kelkar
60)	Free light chains : Emerging role in evaluation of plasma cell disorders	Jyoti Kotwal Vibha Dutta,SM Brig Velu Nair
61)	Supportive treatment in plasma cell myeloma	Rajib De K.S. Natarajan
62)	Treatment of systemic light chain amyloidosis	Auro Viswabandya
<b>Section XI - Transfusion &amp; transplant medicine</b>		
63)	Platelet transfusion : What's new in 2012 ?	Priyanka Sharma Purvi Kadakia Archana Swami Nitin Shah

		Mukesh Desai Bharat Agarwal
64)	Cord blood banking : Public and private	Chandra Viswanathan
65)	Hematopoietic stem cell transplantation : Chimeric studies	Sunita Polampalli
66)	Hematopoietic stem-cell transplantation for hemophagocytic lymphohistiocytosis	Rahul Naithani
<b>Section XII - Laboratory science</b>		
67)	Hematology analyzers : Newer parameters of clinical utility	Shanaz Khodaiji
68)	Basics of polymerase chain reaction	Anuradha Choughule Kumar Prabhash Pallavi Pandit S.D.Banavali
69)	Myelodysplastic syndrome : Advances in diagnosis - From morphology to flow cytometry	Neha Mittal P.G. Subramanian Sumeet Gujral
70)	Immunophenotype of peripheral blood and marrow - What is normal ?	Kunal Sehgal
71)	Flow cytometry in non-malignant haematological disorders	Jasmita Dass Renu Saxena
72)	Tissue flow cytometry in haematological diagnosis : A rapid, robust and reliable diagnostic aid !	Anil Handoo Dharminder Jain Neetu Tyagi Rahul Bhargava Deepak Sarin Ashok Vaid Vimarsh Raina
73)	Molecular flow cytometry : A research concept or a reliable diagnostic modality	Pranav Dorwal Anil Handoo
<b>Section XIII- Miscellaneous</b>		
74)	Haematological emergencies	Jim Murray
75)	Fraud in medicine	Jim Murray
76)	Case based discussion in haematological malignancies a) HLH in CLL b) PUO in HCL	Jim Murray
77)	Primary immunodeficiency disorders : Diagnostic approach	Manisha Madkaikar
78)	Acquired haemophagocytic syndrome	Sanjay Mehrotra Deep Chandh Raja S Abhishek Singh
79)	Hematological disorders in HIV disease	A.K. Tripathi
80)	Lymphoproliferative lesions in HIV infection	Meenal Shirish Hastak
